

Ms. Eng's Challenge of the week!

Hello boys and girls.

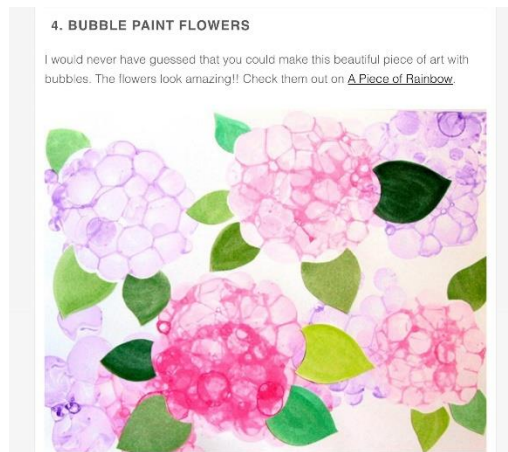

This week we are focusing on Art. Now that the weather is finally warm (although I don't know what happened yesterday), here are some outdoor arts and crafts ideas for you. Please click on the website below and it will bring you to a site with 25 different activities. You may need your parents to help you make some of these. You should have all the necessary materials at home to make most of them. However, your parents may have to make a little trip to the dollar store to get a few materials.

I have taken pictures of some of the activities I like.
